

# IVEREN HANNU

## UI/UX DESIGNER

F.C.T, Abuja | [ivy.hannu@gmail.com](mailto:ivy.hannu@gmail.com)  
(+234) 8036174220 | [LinkedIn](#) | [Behance](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

---

UI/UX Designer with 6+ years of experience designing web and mobile experiences across healthcare, community, travel and service-based products. Skilled in product design, UX research, information architecture, user flows, prototyping, design systems, accessibility and usability evaluation. Brings an earlier background in project management, stakeholder delivery and team leadership, with growing experience taking design decisions beyond Figma through AI-assisted product development and functional implementation.

### CORE EXPERTISE

---

**Product & UX:** Product Design · UX Research · Information Architecture · User Flows · Wireframing · Prototyping · Interaction Design

**Systems & Quality:** Design Systems · Accessibility & WCAG · Responsive Design · Usability Evaluation · Design-to-Code Review

**Delivery & Collaboration:** Requirements Gathering · Stakeholder Management · Developer Collaboration · Product Thinking · Team Leadership · AI-Assisted Product Development

**Design & Web Tools:** Figma · Framer · Jitter · Canva · WordPress · Squarespace

**Build & Workflow:** GitHub · Expo · ClickUp · Notion

**AI-Assisted Development:** Antigravity · OpenCode · Codex · Claude · Claude Code · ChatGPT

### PROFESSIONAL EXPERIENCE

---

#### UI/UX Designer | Trifolio Heights

Jul 2022–Present | Remote

- Design responsive web and mobile experiences, translating business requirements and stakeholder needs into user flows, wireframes, prototypes and production-ready interfaces.
- Structure complex content and journeys using information architecture, interaction design and responsive UX principles across desktop, tablet and mobile.
- Develop reusable components and design-system patterns while applying accessibility, visual hierarchy and usability principles.
- Collaborate with stakeholders and developers to resolve implementation constraints, review design-to-code fidelity and refine interaction, responsiveness and visual consistency.

#### UI/UX Designer | Bayelsa Health Insurance Scheme (BHIS)

Oct 2021–Nov 2022 | Remote, Nigeria

- Redesigned an internal health-insurance data management platform, translating complex operational workflows and unclear requirements into clearer user journeys and interface structures.
- Gathered product context through stakeholder conversations and usability evaluation, mapped workflows and identified friction within existing processes.
- Translated findings into user flows, wireframes and high-fidelity interface designs for complex operational tasks.
- Collaborated with developers to clarify intended behaviour and implementation; detailed screens and internal workflows remain confidential.

#### Freelance Web & UI Designer | Independent

2019–2021 | Remote

- Designed responsive websites and digital interfaces for small businesses and independent clients, translating requirements into clear layouts and usable web experiences.
- Expanded from website design into broader UI/UX practice, incorporating user flows, wireframing, prototyping, interaction design and usability-focused decisions.
- Worked directly with clients to gather requirements, present design rationale and refine solutions through feedback.

## SELECTED PRODUCT WORK

---

### Bus Lotus | Product Design / UI/UX

2026

- Took a mobile-first intercity travel product from requirements and UX decisions through interface design and AI-assisted implementation into a functional V1.
- Designed route search, journey comparison, seat selection, booking, payment simulation, ticket access and trip management using accessible, reusable interface patterns.
- Used vibe coding and AI-assisted development to evaluate design-to-code fidelity, identify regressions and refine the working product against intended UX.

### FGCJ Y2K | UX/UI Design

2025

- Designed a responsive alumni platform for reconnecting former students, exploring digital yearbooks, recovering and uploading photographs, and sharing community memories.
- Structured years of archival and alumni content through clearer information architecture, user flows and responsive interface design across desktop, tablet and mobile.

### Tuella AI | Product Design / UI/UX

2025

- Designed authentication and onboarding for an AI product covering sign-up, login, verification, password recovery, system states, dashboard entry and first interaction.
- Developed a consistent component and interaction system with accessibility and feedback states, then evolved the prototype through vibe coding and AI-assisted implementation.

### Health Track | UI/UX / Accessibility

2025

- Designed a focused healthcare interface using semantic colour, hierarchy and interface states to communicate patient information clearly.
- Applied WCAG guidance, accessibility-aware contrast and reusable colour variables across light and dark interface states.

## EARLIER PROFESSIONAL EXPERIENCE

---

### Project Manager | Steincorp Earth Resources

Nov 2018–Feb 2022 | Abuja, Nigeria

- Managed up to five concurrent projects while maintaining 95% on-time delivery.
- Improved operational efficiency by 20% and reduced project disruptions by 30% through stronger planning, coordination and risk management.
- Coordinated requirements, timelines, teams, suppliers, stakeholders and project reporting across multiple initiatives.

### Business Development Analyst & Supervisor | Etisalat Nigeria

Aug 2013–Oct 2017 | Lagos, Nigeria

- Grew subscriber base by 379%, from 3,204 to 15,353.
- Supervised team performance exceeding annual benchmarks by 140%, supporting distribution and market growth.

## EDUCATION

---

### Bachelor of Arts (B.A.), Theatre Arts | University of Abuja

2006

## SELECTED CERTIFICATIONS

---

- Design to MVP, AI-Assisted Product Development | Dev & Design Bootcamp | Programme completed, 2026
- UI/UX Design & Vibecoding, AI-Assisted Design and Development | Dev & Design Bootcamp | Oct 2025–Apr 2026
- UX/UI Research and Design | Aienai UX/UI Coaching and Mentorship | Oct–Dec 2022
- Google Project Management | Google Career Certificates | Aug 2022–Feb 2023
